

Suitable ecology	Rainfed and irrigated uplands
Suitable season	Both Kharif and Rabi
Variety duration (days)	115-120
Plant height (Stature)	Semi dwarf
Grain type	Small bold
Abiotic stress tolerance	Minimal stress
Biotic stress tolerance	Moderately resistant to BL, NBL, BS, SB, GM, LF
Special features	-
Potential yield (t/ha)	4.5

**Abbreviations:**

BL – Blast, NBL – Neck Blast, BS – Brown Spot, SB – Stem Borer, GM – Gall Midge, LF – Leaf Folder
