

Suitable ecology	Rainfed and irrigated uplands
Suitable season	Both Kharif and Rabi
Variety duration (days)	90-95
Plant height (Stature)	Semi dwarf
Grain type	Long bold
Abiotic stress tolerance	Minimal stress
Biotic stress tolerance	Moderately resistant to BL, BS, BLB, ShB, RTV, GM, SB
Special features	-
Potential yield (t/h)	3.5

**Abbreviations:**

BL – Leaf Blast, BS – Brown Spot, BLB – Bacterial Leaf Blight, ShB – Sheath Blight, RTV – Rice Tungro Virus, GM – Gall Midge, SB – Stem Borer
