

Suitable ecology	Rainfed and irrigated medium lands
Suitable season	Both Kharif and Rabi
Variety duration (days)	130
Plant height (Stature)	Semi dwarf
Grain type	Lon slender
Abiotic stress tolerance	Minimal stress
Biotic stress tolerance	Moderately resistant to NBL, GM
Special features	Aromatic
Potential yield (t/ha)	4.5

Abbreviations:

NBL – Neck Blast, GM – Gall Midge
