

Suitable ecology	Rainfed and irrigated medium lands
Suitable season	Kharif
Variety duration (days)	135
Plant height (Stature)	Semi dwarf
Grain type	Small bold
Abiotic stress tolerance	Minimal stress
Biotic stress tolerance	Moderately resistant to LB, BS, ShR, SB, LF
Special features	Non-lodging
Potential yield (t/ha)	4.8

**Abbreviations:**

LB - Leaf Blast, BS – Brown Spot, ShR – Sheath Rot, SB – Stem Borer, LF – Leaf Folder
